

Awajikatelem Felix

UI/UX Designer & Frontend Developer

Rivers State, Nigeria | 08157472184 | awajikatelemfelix@gmail.com

Portfolio: Figma Team Projects

Professional Summary

Creative UI/UX Designer & Frontend Developer with a flair for crafting intuitive user experiences and building responsive, modern web interfaces. Passionate about turning ideas into polished digital products, backed by hands-on experience designing a crypto trading app and a travel booking app using Figma and frontend technologies.

Skills & Tools

- UI/UX Design (Figma, User Research, Prototyping, Wireframing)
- Frontend Development (HTML, CSS, JavaScript)
- Responsive & Mobile-First Design
- Collaboration & Communication
- Creative Problem Solving

Experience

Product Designer — Technoville Innovation Nigeria (2025)

- Led the UI/UX design of a crypto trading app, delivering high-fidelity mockups and interactive prototypes.
- Conducted usability testing and user research to refine design decisions.
- Worked alongside developers to ensure the design translated seamlessly into code.
- Ensured brand consistency and cohesive visual language throughout the product.

UI/UX & Frontend Project — Travel Booking App

- Designed end-to-end experience flows and interface layouts for browsing, booking, and managing trips.
- Created responsive screens and prototypes for both desktop and mobile.
- Planned user journeys and wireframes to guide usability and flow.

Certifications

- Product Design — Technoville Innovation Nigeria, 2025
